

Trying to Delay Strike

Telephone Peace Negotiations Are Reported As Deadlocked

WASHINGTON, Feb. 6.—(P)—Conciliation Director Cyrus S. Ching today asked the CIO Communications Workers to put off any strike until Feb. 24.

NEW YORK, Feb. 6.—(AP)—Telephone peace negotiations were reported hopelessly deadlocked today with a nationwide walkout scheduled to start at 6 a.m. Wednesday.

Federal mediators kept plugging, however, in an apparent all-out effort to get a postponement agreed upon by tonight.

"The situation has not improved at all," said Ernest Weaver, president of the installation division of the CIO Communications Workers of America, after a meeting with company officials and mediators.

Weaver added that any decision to postpone the walkout would have to be reached before tomorrow.

"We could not possibly call off the strike within 24 hours," he said. "We have too many far-flung locations."

Might Consider Postponement
The union official said earlier that the union might consider a postponement "if something is to be gained."

Another conference was called for 2 p.m. with Chief U.S. Mediator Cyrus S. Ching scheduled to take part.

Reports were current that the government is trying to get a two-week postponement.

The mediators themselves remained silent, however, and there was no hint of a postponement from the union's national officers, who have said the strike appears inevitable.

The strike would involve more than 300,000 workers in the nationwide Bell telephone system. The installation division is a key unit, with 11,000 workers in 43 states.

ST. LOUIS, Feb. 6.—(P)—Union and Southwestern Bell Telephone Company negotiations will meet late today in joint session with federal labor conciliators in what may be a final effort to settle their contract dispute.

A national walkout of telephone employees is scheduled to begin at 6 a.m. Wednesday. Southwestern Bell employees in Missouri, Kansas, Arkansas, Oklahoma, Texas and part of Illinois are ready to join in the strike, Frank P. Longgran, vice president of division 20, CIO Communication Workers Union, said.

Those Taking Part
Taking part in today's meeting here will be Vance Julian, chairman of the Missouri board of mediation; William F. White, regional director of the U.S. conciliation and mediation service, and federal conciliators A. E. Johnson and H. A. Griffith.

Johnson, who arranged today's last-minute conference, was pessimistic about the possibility of a settlement in the Southwestern Bell dispute.

"Neither side has shown any intention of offering new proposals that might provide a basis for settlement," Johnson said.

Issues in the southwestern dispute are the same as in the national dispute—wages and working conditions. Southwestern Bell turned down a union demand for a 15-cent-an-hour pay raise and certain contract changes.

Russia Has Capacity To Drop Atom Bombs

NEW YORK, Feb. 6.—(P)—W. Stuart Symington, secretary of the air force, said last night that Russia has the capacity to drop atom bombs on any part of the United States.

Speaking at the annual dinner of the New York Baseball Writers Association, Symington declared: "We all know international conditions are not healthy in this postwar cold-war period. Behind an iron curtain there has been an atomic explosion, in a country which today has the capacity to deliver bombs to any part of America, and we have no sure defense."

City Council To Meet Tonight

The City Council will meet in regular session at the City Hall at 7:30 o'clock tonight, Mayor Julian H. Bagby presiding. Among the business to be transacted will be burning the paid off coupons, the last of the judgment funding bonds issued in 1934.

Frigid Pastime

With the temperature in the lower 20's, Otto Hildebrand, 35, a Jefferson City, Mo., policeman swims among the ice floes in the Missouri river. Hildebrand, who likes to swim in the river summer and winter, says that it keeps him in the pink of condition for his job, and that he hasn't had a cold in 27 years. "It's all a matter of conditioning," he says. (AP Wirephoto)

Secretary to Governor is Club Speaker

Explains Proposed Road Program to Be Voted in April

"There is no more important matter confronting the people of this state today than what is to be done about our roads," James C. Kirkpatrick of Jefferson City, executive secretary to Gov. Forrest Smith, told Sedalia Rotary Club members at their dinner meeting today at noon in the Ambassador Room of Bothwell hotel.

"Our plight as it pertains to roads in this state is very plain. Our highways are wearing out and the state is running out of money to do something about the situation. Either we must find a way to get more money or permit the roads to deteriorate further. There is no other choice," the speaker related.

In quoting figures, Mr. Kirkpatrick said, "Maintenance alone requires approximately one-third of all state revenues received by the State Highway Department. In 1942 the department spent \$4,268,166 for maintenance of our roads. In 1949 it had risen to \$11,903,641 and this year the highway department expects it to reach nearly \$12,000,000."

Average Age 18 Years
The speaker pointed out that the average age of our main routes is 18 years. These highways were built for model T trucks, he related. "Now we have the big rubber-tired box cars carrying up to 80,000 pounds. And our highway traffic has increased 335 per cent since 1925."

He said, "Our highways were not built for the terrific pounding they get today from the big tractor-trailer jobs. You people who have driven much on highway 40 know what has been happening to our major highways. You have seen it go to pieces most of the distance between Kansas City and St. Louis. You are well aware of the constant job of patching that has been going on. And now the state highway department is either resurfacing or rebuilding."

Film People Seeking Long Term Contracts With Christ

HOLLYWOOD, Feb. 6.—(P)—Connie Haines gave this testimony: "The faster I climbed in my career, the more I lost touch with God." She then said she made a week-long prayer retreat and "decided to give up my career if it kept me from God." She said she later cancelled engagements which had other acts which she considered below par.

"I found out then that things worked out beautifully each day," Moses identified other members of the group as Actor John Holland, Cowboy Singer Tim Spencer, Actress Joyce Compton, Singer-Dancer Georgia Lee, Actress Lois Chartrand and Actor Porter Hall.

Moses wrote of one meeting he attended at the home of Actress Jane Russell, at which Singer

Important Events In World News

BERLIN, Feb. 6.—(P)—West Berlin newspapers minimized today the warning by Socialist leader Kurt Schumacher that the city faced a Communist coup May 27.

Schumacher is the opposition leader in the west German republic's parliament. He recommended that Allied tanks be used to stop a reported coup he said the Reds plan to pull off during a rally of an anticipated 600,000 east German Communist youth at Whitsuntide.

WASHINGTON, Feb. 6.—(P)—Both Republican and Democratic leaders predicted today that the house will agree to continue economic aid to Korea and Formosa.

The single bill providing aid for both places comes up for a vote tomorrow.

It provides \$60,000,000 of economic aid to the republic of South Korea between Feb. 15 and the end of June. It also provides for spending in Formosa part of an unexpended balance of \$103,000,000 from the China aid act of 1948.

SINGAPORE, Feb. 6.—(P)—Philip C. Jessup, roving U. S. ambassador, said today he believes Communist China and the Soviet Union are ready to give material and troop support to the guerrilla regime of Moscow-trained Ho Chi-Minh in Indochina.

NEW ORK, Feb. 6.—(P)—A new approach to international control of atomic energy is proposed by a group of 1,500 American scientists.

The plan—which envisioned the possibility of the U. S. making economic concessions in exchange for atomic inspection concessions by the Russians, was put forward yesterday by the federation of American scientists.

The federation, many of whose members worked on the A-bomb development, urged President Truman to set up a new commission to study this nation's atomic energy policy.

Anniversary Of Scouting Is Observed

Pettis County Units Will Have Many Activities

Boy Scout Week, marking the 40th anniversary of the Boy Scouts of America will be observed from today through Sunday. The anniversary will be celebrated in every city and town and most villages and hamlets throughout the nation and its territories by 2,300,000 boys and adult leaders.

President Truman will greet twelve outstanding Boy Scouts in Washington during the week. The Scouts will present to Mr. Truman the "Report to the Nation" telling of Scouting's service to the community since he greeted a similar group of twelve outstanding Scouts a year ago. President Truman is honorary president of the Boy Scouts of America.

The highlight of the second year of the Crusade will be the National Jamboree at Valley Forge, Pa., at which 40,000 scouts and leaders from every section of the nation and several hundred scouts of other lands will camp together from June 30 to July 6.

County Activities
During Boy Scout week the units of the Pettis district will have many activities of interest to parents and friends. Among the highlights of the week will be pot luck suppers, recognition programs and demonstrations of many sorts. Many guests will visit unit meetings and see for themselves the scouts in a demonstration of democracy at work.

All will enjoy evenings of campfire songs, skits, games and stunts. This year, as part of their observance of the crusade, many meetings will feature a ceremony of lighting a special torch to emphasize its aims.

In accordance with tradition, scouts will be given the opportunity to rededicate themselves to the scout oath and law on February 8th at 8:15 p. m.

Window Displays
Many store windows in Sedalia and one in LaMonte will have displays of handicrafts and skills made by the Cubs and Scouts of the communities. These displays will show only a small part of the activities in which these boys take part.

Sunday, Feb. 12 will be Boy Scout Sunday. In some churches in Sedalia, however, services were held February 5. The services were and will be conducted in recognition of the scouts and the anniversary. Scouts are attending their own church in uniform.

Construction Worker Killed
COLUMBIA, Mo., Feb. 6.—(P)—Archie Lee Coleman, a 22-year-old construction worker, was killed yesterday in a traffic accident north of Columbia on Highway 63.

A taxicab in which Coleman was riding overturned. He was thrown from the vehicle and apparently suffered a broken neck. The driver and another passenger escaped injury.

Proclamation Issued

JEFFERSON CITY, Feb. 6.—(P)—This is Boy Scout week in Missouri by proclamation of Gov. Forrest Smith.

He recognized the 40th anniversary of Scouting in a proclamation issued today and urged citizens to help "further this wholesome youth program."

Gangland Bomb Wrecks Leader's Home

Mickey Cohen Had Changed Bedrooms; Was Not Hurt

LOS ANGELES, Feb. 6.—(P)—A gangland bomb wrecked Mickey Cohen's \$100,000 radar-protected home before dawn today but the little mobster—leading his usual charmed life—escaped unhurt.

Mickey, his wife and a maid were home at the time—and the bedroom where Mickey usually sleeps is in pieces out in the front yard. His wife and the maid also were unhurt.

Police said Cohen wouldn't explain why he changed bedrooms when he retired early today. A detective relayed this comment: "I wish I knew who the SOB's are who are doing this to me."

The dapper little gambler's expensive wardrobe took the brunt of the blast, the detective said, adding "it's in shreds."

About half the seven-room house's foundation was damaged, officers said, and one wall blown out by a fuse bomb placed during a brisk rain. Cohen had been in the room the explosion hit hardest only a few minutes before, checking an alarm set off by a break in his electronic warning device.

Damage Great
The damage—estimated at \$50,000—was so great that police earlier reported that Cohen could not have been home and survived such a blast.

Kathryn Jones, the Cohen maid, called the West Los Angeles police station and hysterically reported there had been a "terrific" explosion at the Cohen home.

But the blast was so shattering that the police said they heard it even before Miss Jones called. The police station is three-and-a-half miles away from the Cohen home.

Cohen and his wife were sleeping at the rear of the house. Mickey described the blast thusly: "About 4:15 (PST) this morning my alarm went off. That is my electric eye system. I got up and the eye system pointed at the particular part of the property that had been broken. I went to the front windows, didn't see anybody, and I didn't hear anybody. I went back to bed, that was about three minutes, and then the explosion came."

Split the Front Door
"I jumped out of bed to see what it was, ran to the front of the house. I have no idea what it was. It split the front door from top to bottom, plus every window in the house. I think the damage would be about \$50,000."

Cohen said he was out till midnight and went to bed around 1:30 a.m.

"Why would anyone want to do a thing like this to me," queried Cohen.

Police said a bomb apparently caused the blast and theorized it either was tossed or leaned against the house.

This is the second attempt in less than a year to assassinate Cohen, boss of Southern California's gambling rackets.

Last July 20, shotgun blasts met his party as it left Sherry's restaurant, a Sunset Strip cafe, in the pre-dawn hours. In that gangland-style shooting, Cohen was injured and Neddie Herbert, one of his henchmen, later died.

Key Figure in Vice Probe
It was Cohen who was the key figure in the Los Angeles vice probe which touched off a wholesale shake up of the Los Angeles police department.

Cohen and four of his henchmen are currently on trial on conspiracy charges stemming from a beating of a radio shop owner last March 19. Two police officers also are on trial.

Two rookie policemen captured seven Cohen henchmen fleeing the scene of the beating in a big limousine. Taken to Wilshire police station, release of the men was ordered by higher officers and orders given for the arresting officers to "hush-up."

Three of the Cohen gang members have been eliminated from the case. Herbert died from his gun wounds. Frank Niccoli and Dave Ogul disappeared mysteriously.

Some \$75,000 in bonds put up by Cohen for the two missing henchmen has been vacated. Recently, Mickey sold his Sunset Strip haberdashery stock to help raise the money.

Nation Wide Walkout Angry Miners; President Truman Invokes Taft-Hartley Law

Names Board of Three to Look Into Issues That Are in Dispute

WASHINGTON, Feb. 6.—(P)—President Truman today invoked the Taft-Hartley law in an effort to restore coal production.

He appointed a board of inquiry headed by David L. Cole, Paterson, N.J., lawyer, to look into the issues at dispute.

The other members are William W. Wirtz and John Dunlop. In view of the emergency, the president instructed the board to report "not later" than one week from today.

Mr. Truman's move sets in motion T-H law procedures that could lead to a court order a week or 10 days from now for the miners to get back to work for 80 days.

Whether the miners will pay any attention to a "stop-strike" order from the courts—provided one is issued—is a question. John L. Lewis, the 70-year-old president of the United Mine Workers, told Mr. Truman last week that he doubted they would.

Only Coal Industry
Presidential secretary Charles G. Ross said Mr. Truman's order covered only the soft coal industry.

He said the three board members had accepted the appointments and would meet in Washington tonight to begin work. When the president acted, reports from the coal fields indicated at least 360,000 of the 400,000 soft coal miners were idle.

Coal production was down to the merest trickle. Without it, many industries will have to close soon, throwing thousands out of work. In many cities, coal supplies for home heating are short.

Mr. Truman's order creating the board of inquiry said the dispute between the United Mine Workers and the soft coal industry "has resulted or threatens to result in a strike or lockout affecting a substantial part of the bituminous coal industry" and that the "strike or lockout, if permitted to occur or to continue, will imperil the national health and safety."

Can Seek Injunction
Once the board reports, the president can ask the attorney general to go to a federal court and seek an 80-day injunction against a further strike.

If the miners should not obey it, the government might seek penalties for contempt of court.

In 1946 a court slapped the miners with a \$700,000 fine for contempt and Lewis with a \$10,000 one personally, in 1948, in another contempt case, those fines were doubled—\$1,400,000 on the union and \$20,000 on Lewis.

Lewis' suggestion that the miners might not pay any attention to a "stop strike" order was on Saturday when he turned down Mr. Truman's proposal for a 70-day strike truce while a fact-finding board, appointed outside the Taft-Hartley law, looked into the dispute that has plagued coal production for eight months.

Not Pleased
Lewis said the miners did not want "three strangers"—meaning the board Mr. Truman proposed to appoint—settling their economic problems.

The UMW chief's attitude left the president little choice except to turn to the labor-hated Taft-Hartley act which has administered

(Please turn to Page 4, Column 6)

Truman Makes Use of T-H Law Seven Times

WASHINGTON, Feb. 6.—(P)—President Truman, up to today has made use seven times of the national emergency provisions of the Taft-Hartley Act he is pledged to repeal.

In three of those instances the case did not go all the way through to court injunction.

The list:
1. March, 1948—injunction, against employers rather than workers, over the strike threat of 900 AFL workers at the Oak Ridge Tenn., Atomic Energy plant. The issue was wages.

2. March, 1948—meat packers dispute over pay, settled without injunction.

3. April 1948—injunction against John L. Lewis and the United Mine Workers in the dispute over the Coal Pension and its chief were fined \$1420,000 for contempt.

4. May, 1948—long lines telephone dispute over pay and other issues, settled after the President had moved in but before any injunction was obtained.

5. June, 1948—injunction in the Maritime dispute over the hiring hall issue. There were three separate orders, on the Atlantic and Gulf coasts, and the Great Lakes.

6. June, 1948—soft coal dispute over working contract, settled without injunction.

7. June, 1948—injunction in the Longshoremen's pay dispute.

Coal Railroads Have

WASHINGTON, Feb. 6.—(P)—The Association of American Railroads estimated today that the major railroads have, on the average, coal reserves to last 14.8 days.

A spokesman said he was not sure whether this was the lowest level ever reached, but was quite certain it was one of the lowest.

Railroad coal stocks have dwindled in spite of a one third cut last month in passenger service dependent upon coal burning locomotives.

Chairmen of Red Cross Drive Committee Heads

Plans for the Red Cross Drive to start soon and of which Harry Naugle is general chairman, have been completed, with the following in charge of the various divisions. They are: Public information, Chester L. Wolff; radio, Milton Heinlein; window display, F. A. Diefenbach; speaker's bureau, Rev. Warren Neal.

In charge of the soliciting are the following: County, John Ryan, Oscar DeWolf and Roy I. Coplen; residence, Mrs. Henry Menefee; business, Kenneth U. Love; industry, William Schien; north side, Mrs. Nell Burrell; court house, Carl Urban; teachers, Heber U. Hunt, and advance gifts, R. A. Malone.

Sale Is Delayed

The foreclosure sale of the Rice Leghorn Farm by the Reconstruction Finance Corp., set for today, has been delayed by a rescinding order pending a hearing in Federal Court in Kansas City on bankruptcy. The hearing on the bankruptcy has been set for February 15.

Fatally Hurt in Car Wreck

HANNIBAL, Mo., Feb. 6.—(P)—Don Eager, 24, of Hannibal was fatally injured and two other youths were hurt when their automobile left the pavement and overturned south of here last night.

Wingless Chickens Are Sent To Latin American Countries

KANSAS CITY, Feb. 6.—(P)—Wingless chickens, the latest development in the poultry world, were sent today to three Latin American countries as a good will gesture by an airline.

Branniff International Airways flew the birds, developed in the last 12 years by Peter Baumann of Des Moines, to Cuba, Peru and Brazil. The airline paid Baumann \$500 a pair for the birds.

The airline is giving a pair of the wingless chickens to the president of Cuba, Carlos Prío Socarras; to Professor Carlos Alberto Da Cunha, Brazilian educator and an assistant director of the United Nations Bureau in Rio De Janeiro, and to Col. Alberto Leon Diaz, minister of agriculture for Peru.

Since Baumann announced the development of the wingless chickens some months ago he has sold only 40 pairs and those all to breeders in this country. The price varies from \$250 to \$500 a pair, depending on type, size and color.

Baumann has between 250 and 300 of the chickens now, but he explained to the airline he culls them carefully, discarding any which have questionable reproduction qualities.

A combination of the breeds of White Minorca, Light Brahma and White Leghorn, the Baumann flock averages four and one-half pounds a bird and have white meat where wings ordinarily would be.

Baumann predicts it will be five to 10 years before the wingless chicken is a competitive with other chickens at meat case prices.

The ones sent today by Branniff are the first to be shipped out of the United States. They are expected to be used for reproduction purposes.

Nearly Score of States Join in All Out Bid For a Contract Showdown

PITTSBURGH, Feb. 6.—(P)—The soft coal strike burst into a nation wide walkout today with angry miners in nearly a score of states joining in an all out bid for a contract showdown.

As the number of idle miners skyrocketed from the 100,000 out last week in six states to at least 360,000, production of bituminous (soft coal) plummeted. Roving pickets were active in some areas.

"Let's wait and see what happens now," declared a grizzled veteran of the Pennsylvania pits.

He referred to reports President Truman is ready to invoke the Taft-Hartley act against John L. Lewis and his United Mine Workers.

Surveys showed no UMW diggers at work in Pennsylvania, West Virginia, Illinois, Utah and Tennessee. Other states said incomplete checks indicated a total work stoppage.

A small stream of coal still is coming from unorganized mines in some areas and from the coal companies whose operators have signed new contracts on Lewis' terms.

Those pacts, covering a small proportion of the nation's 400,000 soft coal miners, give the men a raise from \$14.05 a day in basic wages to \$15. They also increase operators' payments to the UMW welfare and pension fund from 20 cents a ton of coal mined to 35 cents.

State By State Picture

State-by-state reports give this picture:
Pennsylvania—All 100,000 UMW miners idle. About 80,000 anthracite (hard coal) diggers are still at work while contract negotiations continue.

West Virginia—Practically all the 120,000 unionized mine workers are refusing to work. Pickets are reported roving some fields in auto caravans to make sure all pits are down.

Alabama—At least 12,000 idle, including many men employed in mines which worked last week.

Ohio—UMW officials declared that none of the state's 17,000 UMW miners are expected to work.

Indiana—Some miners showed up for work but promptly went home.

Iowa—About 15 mines, employing 450, are working because the operators signed contracts which agreed to Lewis' demands.

Illinois, Utah and Tennessee—No unsigned coal companies were able to reopen.

More State Report
Kentucky—All 50,000 UMW miners staying away from pits.

Wyoming—4,000 of 4,500 miners out.

Colorado—Most mines in the state, employing 6,000, are closed. Kansas and Western Missouri—Miners reported working as usual.

Oklahoma and Arkansas—UMW Chief Dave Fowler said he is certain about 5,500 miners are working on a three day week and another 1,000 under new contracts calling for a five day week.

Virginia—15,000 miners out. Railroads serving coal mines said no pits are operating.

Miners are "sick and tired of the way John L. Lewis has been humiliated by the operators, backed by the federal government," said President William F. Minton of UMW district 28 (Virginia).

The Weather

Central Missouri: Partly cloudy and mild tonight and Tuesday. Low tonight between 35 and 40. High Tuesday in 50s.

MILD
Temperature: 7 a. m. 45 degrees; 2 p. m. 54 degrees.
Lake of Ozarks: 3.8; rise 1.1.

Thought for Today

Father of Light! Great God of Heaven! Hearst thou the accents of despair? Canst thou like man's be e'er forgiven? Can vice atone for crimes by prayer?—Byron.

Social Events

Mr. and Mrs. J. M. Messerly, of Kansas City, returned to their home Sunday after spending the week-end in Sedalia, coming here to attend the marriage of Miss Mary Lucille Reid and Dr. John Joseph Eustermann, which took place Saturday morning.

Saturday night a group of Mr. and Mrs. Messerly's friends gathered at the Sedalia Country club for a dinner.

Miss Dorothy Kathleen Roberts, of St. Louis, became the bride Saturday evening of Mr. Jack Croy, Jr., son of Mr. and Mrs. Floyd Croy, of St. Louis, formerly of this city. The marriage took place at the Lackland Baptist church in Overland, Mo.

Mr. and Mrs. W. B. Roach, 411 West Fifth street, are grandparents of the bridegroom and returned home Sunday night from St. Louis where they attended the wedding.

The program for the February meeting of the Welcome Wagon Newcomer's Club will be in the form of a noon luncheon and card party, Wednesday at noon at the Bothwell hotel.

Mr. and Mrs. C. A. Crole, northeast of LaMonte, entertained with a family dinner Saturday night in honor of Mrs. Crole's brother R. O. Weathers of Bartlesville, Okla.

Guests included Mrs. Lena Booth, M. D. Weathers and Mr. and Mrs. Pearl Stuart, all of Sedalia and Robert Booth and J. R. Bone, students at the Central Missouri State college, Warrensburg.

"Come along with us, the Girl Scouts of the United States of America" in Democratic partnership. Into the adventure of the Girl Scout Program, badges to earn, into the out-of-doors, in the back yard, on hikes, at camp.

The Sedalia Girl Scout camp slogan for 1950—More camping for more girls. Our project for 1950, School bags for School Mates overseas.

Calendar for February—Leaders meeting, 7:30 p. m., Tuesday evening, February 7, Episcopal Parish Hall. We salute the Boy Scouts on their 40th birthday, Feb. 8. Council meeting, 9:30 a. m., Thursday, Feb. 9, in the Girl Scout office at the Court House. Lincoln's Birthday Feb. 12. Washington's Birthday and Girl Scout Thinking Day, February 22. What better way to celebrate Thinking Day than planning our school bags for school mates overseas.

Feb. 23 and Feb. 24, Mrs. J. Roger De Witt, Region VIII, Volunteer Trained will be in Sedalia for special training of Council members, leaders, co-leaders, troop committee members or other adults interested in the Girl Scout program. A complete schedule of the two day meeting will be announced shortly.

Badges suggested for February: Western Hemisphere, World Neighbor, World Trefoil and My Country.

Girl Scouting is world-wide. Girl Scouts everywhere strive toward a better understanding of each other.

Mrs. John M. McCloskey, leader of troop 13, Sacred Heart, made an interesting report of the Senior Conference, held in St. Joseph in January. Mrs. McCloskey represented the senior leaders of Sedalia, and chaperoned the two senior Girl Scouts who attended the conference from Sedalia: Cynthia Mynatt, troop 19, Smith Cotton and Charlotte Wiemholt, Sacred Heart.

Plans were completed at this meeting for a Conference to be held in St. Joseph, April 14, 15, 16, for representatives from each senior troop in the area.

Have Fun, is one of the first principles of the Girl Scout program, one way of having fun for girls of all ages is having a party. Brownie troop 60 Washington school are doing preliminary work for Brownie Fly Up day which will be held in May. One of the requirements is an activity in homemaking. Mrs. F. Emory Bowman entertained the troop at her home this week assisted by the colcader Mrs. W. F. Duncan. The girls took entire charge of the party, planned the menu, hot dogs and orangeade, a word game was played while the girls were at the luncheon table, which they had prepared and decorated. The girls who were present were: Shirley Mae Ash, Patty Dalby, Lelah Goetz, Janelle Goldsmith, Beverly June Long, Sandra Oswald, Betty Phillips, Bonnie Kay Shaw, Deanna Jean Shutt and Carolyn Sievers.

Troop 7, Fifth and sixth grade intermediate Girl Scouts, Whittier school, are working on badge work, covering cooking, hostess, sports and games. Mrs. Leon

School Bus Grazed by Speeding Train

Twenty-nine persons aboard this school bus miraculously escaped almost certain death when a Missouri Pacific streamliner traveling 73 miles an hour struck the bus at a crossing near Kansas City, Mo. A nun was seriously hurt and seven teen-age girls suffered cuts when the bus was tossed 30 feet and overturned. The highway patrol said the bus driver, Clarence H. Miller, 53, would be charged with careless driving. (AP Wirephoto)

Marquess Weds U. S. Divorcee

WASHINGTON, Feb. 6.—(AP)—The Marquess of Milford Haven and the former Romaine Dahlgren Simpson were honeymooning today on Maryland's Eastern shore before sailing this week for Europe.

The 30-year old British Marquess, who is second cousin to King George VI, and the 26-year old American divorcee were married Saturday at the National Presbyterian church, climaxing an intercontinental romance. Among the 700 guests were members of European nobility and prominent social figures in this country and abroad.

Sailing for England Friday aboard the Ile De France, the couple plan four days in London and then a three-week visit to Switzerland, before returning to New York where the Marquess will represent several British firms.

The bride's first husband was William S. Simpson of Locust Valley, N. Y. whom she married in 1946. They were divorced last year and have a 22 months old daughter.

Simpsons Adopt Girl

A nine months old baby girl, Nancy Ruth, has been adopted by Mr. and Mrs. Charles F. Simpson, of Kansas City. Mrs. Simpson is the daughter of Mr. and Mrs. E. P. Miller, 923 West Seventh street, and Mr. and Mrs. Miller spent the week-end in Kansas City with Mr. and Mrs. Simpson and Nancy Ruth.

Wells, troop leader, arranged a party at the troop meeting this week. The girls doing all the work, homemade cake, ice-box cookies, fruit salad, and fudge was served. The girls decorated the table, and arranged a program. 17 troop members and four visitors enjoyed the fun.

BEST OF THE BIRDS—Pianist Artur Schnabel, as a penguin, and his wife, in a headdress of ostrich feathers, won prizes for the outstanding bird costumes at a "Ball of the Birds" given by Mr. and Mrs. Paul Kolsman in Beverly Hills, Cal.

Cited For Aid To Handicapped

WASHINGTON, Feb. 6.—(AP)—The National Association of Manufacturers was cited by a presidential committee today for helping to find jobs for the physically handicapped.

NAM President Claude A. Putnam accepted a distinguished service certificate from Adm. Ross McIntire, chairman of the President's committee on National Employ the Handicapped Week.

Putnam said the NAM is continuing its six-year old campaign to insure employment for those who are physically impaired.

He said the problem calls for "sound employment procedures, which match the skills of the handicapped with the demands of the job."

Infant Named Frank Dale

The infant son born to Mr. and Mrs. Frank Lindsey, 1211 East Third street, by Caesarian operation at the Bothwell hospital January 26, at 1:11 p. m., weighing five pounds, six ounces, has been given the name, Frank Dale. Dale has a brother, Franklin Ray, 12 years old. The mother and son were dismissed from the hospital, February 2. Mr. Lindsey is employed at the Missouri Pacific shops.

The revolver has undergone its first really radical change since its invention. The cylinder has been moved to the rear, with the grip and trigger-guard underneath and in the center position, while the barrel extends over the top from cylinder to muzzle.

Alligators are classed as reptiles; salamanders as amphibians.

Blast Heard For 30 Miles

HOUSTON, Tex., Feb. 6.—(AP)—A strange unexplained explosion shook the whole northeast corner of Harris county (Houston) last night. Officers said today they were stumped.

There was no question of an explosion, but the cops could not find where it took place. The blast was heard for 30 miles. No death or injury was reported.

Whoever was at the scene, Sheriff C. V. Kern said, either was beyond needing attention, or was too injured to go for help.

Or didn't want anyone to know they were present.

"We certainly will keep on working to track it down," The sheriff said.

"Right now I don't have the slightest idea of what it might have been."

Plotting the explosion on the map, Sheriff's Dispatcher Jimmy Scarborough placed the scene as somewhere on the San Jacinto river bottoms between Sheldon and Crosby.

W. R. Lynch, owner of Lynch's Place in Sheldon, said the 'whoom' shook the house, rattled windows and knocked trinkets from his shelves to the floor.

Sim Bergdahl, Jr., of Crosby, said the rumbling boom shook his house, too.

Queen Mother Mary Has Sciatica

LONDON, Feb. 6.—(AP)—Queen Mary has been so badly crippled by sciatica that she has been unable to walk for the last week, it was learned today.

The 82-year-old Queen mother is confined to her room at her residence, Marlborough House, but she has declined to stay in bed.

Sciatica is neuralgia of the sciatic nerve, the largest in the body, and which runs down the back of both legs.

Generally, it costs more to get an article from the factory into the hands of the consumer than it does to manufacture it. On the average, 60 percent of the price paid to the retailer goes to cover the expenses of distribution.

Two Killed in Wreck

HARRISON, Ark., Feb. 6.—(AP)—Two men, one from Columbia, Mo., were killed and three other persons were critically injured in an automobile collision near here Saturday.

Killed were C. C. Coffman, about 55, of Columbia, and John Paul Holt, 19, of Mount Judea, Ark. The two were the drivers of the cars involved in the accident, which occurred on Highway 65 seven miles north of here.

Received Master's Degree

Joseph L. Schanz, Hughesville, received his degree of master of science in technical engineering, from the Purdue University Sunday afternoon.

It is customary to remove footwear in the streets, as a sign of greeting, in Arakan.

Files as Candidate

Asa Elliott, rural route one, this morning, filed for the Democratic nomination for Judge of the Western District of the Pettis County Court. The office is now held by Judge Edw. Callis, Republican, of near Hughesville.

CHANGE of LIFE?

Are you going through the functional middle age period peculiar to women (38 to 52 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Doctors call it a stomachic tonic effect!

"There Goes An American" The Scenic Room, Thursday evening. Phone Mrs. Hurlbut, 3200, for reservations.

Arranged to meet my friend Anna in downtown Wichita for a shopping spree. She's 50 miles away—sounds like next door.

"IT'S A REAL BUY!"

"Our telephone service is a real budget buy," said Mrs. George Bloomenshine recently, after keeping a five-day record of all telephone calls made and received at her Winfield, Kansas, home.

She finds that her telephone gives valuable service two ways... it saves time running her household... and helps her husband keep in touch with his real-estate and insurance prospects after office hours.

"It's just like having a combination errand boy, salesman and messenger working for us 24 hours a day," added Mrs. Bloomenshine. "What a surprise to find when I checked my record that this service costs us an average of only 2¢ for every call we make and receive!"

Each year brings progress in your telephone service. New telephones added—improvements made! The result: you can call more people, and they can call you—with quicker, better service. It's a real budget "buy"—that grows in value every year! The Southwestern Bell Telephone Company.

What else gives so much for so little?

Evening call from real-estate prospect. George out, so I fill in with details about a house he's offering for sale!

Visited over the phone with Mrs. Reeder before she went off to work. She's gone a lot, but phone keeps us in touch.

Called downtown to ask Mr. Roberts at the furniture store if our table had come in yet. Twelve blocks in twelve seconds!

Search For Contacts Scientist Had

Report Others May Have Been Involved in Case

By The Associated Press

A demand was voiced in Washington today for investigation of whether Klaus Fuchs, German-born British scientist accused of giving atomic data to Russia, may have had high American contacts.

Senator Bridges (R-NH) demanded a search "in high places" for any U. S. contacts Fuchs may have had.

"This man Fuchs," Bridges said, "must have had contacts in this country and we must follow through to find those contacts, particularly to learn whether any of them tie into high places."

WASHINGTON, Feb. 6—(AP)—J. Edgar Hoover gave the Congressional Atomic Committee a first hand account today of the FBI's role in the arrest of a top British scientist accused of giving atomic secrets to Russia.

The Chief of the Federal Bureau of Investigation, accompanied by his two top aides, met with the group behind closed doors. He told reporters he did not plan any public statement after the meeting.

An informant, well acquainted with atomic developments, told a reporter that all evidence indicates that a number of other persons may have been involved with Fuchs. This authority, who insisted on anonymity, said many atomic documents dating back to wartime have been missing for several years.

Say Russians Have Bomb

In London, the British editor who correctly predicted the Russians would explode an atomic charge in 1949, declared the Soviets already have touched off a hydrogen super bomb.

Kenneth De Courcy, who claims to have sources on both sides of the iron curtain, says the Russians have made three H bombs and exploded one of them. He did not say when or where the blast took place.

The U. S. High Commissioner for Germany took a slap at West German officials for criticizing the Western Allies.

In a tough talking-speech Commissioner John J. McLoey told the Germans the United States intends to keep a firm grip on the former Reich's political affairs.

He presented a nine point program for Germany, ruling out an army or air force and pledging that nazism will not rise again there. It was the most critical utterance McLoey has made concerning the Germans since he assumed his post here last summer.

Traffic Frozen

The weather froze Berlin's highway traffic with Western Germany, delaying a conclusive test of whether the Soviet "Little Blocade" was ended.

The few trucks that edged over the icy roads were cleared by the Soviet guards without undue delay.

In the Pacific the U. S. Joint Chiefs of Staff looked over Okinawa, key air base in the American troubled Asia.

There was no official inkling of what the joint Chiefs might report to President Truman and national defense planners, after five days of secret strategy conferences with General MacArthur and his experts.

Dispatches from Formosa said 14 Nationalist bombers pounded Shanghai today in the heaviest air raid of the month. The Chapei power plant was reported damaged heavily. The Reds threw up a heavy anti-aircraft barrage, but all 14 B-24s returned to Formosa safely.

Cauliflower was introduced into England from the island of Cyprus in the 16th century.

Driver of Jeep Is Detained

Tommie Miller, 1321 South Ohio avenue, was detained by the police Sunday night following a wreck at Thirteenth street and Ohio avenue and is held in the city jail in default of bond for his appearance in police court, Tuesday morning. The accident occurred about 6:45 o'clock Sunday evening.

Miller was said to have been the driver of a Jeep which crashed into the rear of a parked truck, a Chevrolet, owned by Marvin C. Fitch, 2107 West Broadway, which then ran into the front of a Dodge truck owned by Ray H. Teel, 1301 South Grand avenue, which was facing south in front of Fitch's truck.

Miller was taken to the Bothwell hospital for treatment, remaining over night and taken to police headquarters this morning. The Jeep was reported by the police as being owned by Charlie Flute, of Montrose.

Secretary to Governor is Rotary Speaker

(Continued from Page One)

much of the mileage of that route. You also, are aware that piece of highway 50 is going to pieces." The speaker remarked that it is happening all over the state. And when some of those who oppose the governor's road program tell you those big trucks aren't tearing up our highways I can show you facts and figures to the contrary."

Have Good Highways

"There may be some who think we have done pretty well with the two per cent gas tax. We have in years past reported as having one of the best highway systems in the nation—but we did not build it alone by having the lowest gas tax of any state in the nation," the speaker said.

He declared that "Our highways were constructed primarily from two bond issues totaling \$135,000,000. Most of you recall the people of Missouri voted \$60,000,000 in road bonds in 1920 and another \$75,000,000 in 1928. That money had been spent. And now our payments on those roads are at the peak. More than \$8,000,000 of our road money goes to meet the annual payments on those bonds before we think about of our highways. By the time those bonds are paid out in 1957, the state of Missouri will have spent a total of \$81,660,000 in interest on these bonds. Just think of the thousands of miles of good roads we could have built with the money paid out in interest."

Advisory Committee

Realizing the road problem was one of the most important matters the state government would have to face Governor Smith, even before he took office, appointed a statewide advisory committee. This committee was composed of outstanding and recognized civic leaders and good roads boosters with an equal number of Democrats and Republicans.

"And right here I want to state to you there's no politics in this good roads program. He said our highways are built for, and used by, Democrats and Republicans alike. What benefits one helps the other equally as well.

The speaker went on to say, "You here in Pettis county have fared better than many counties on highways. You have two major routes crossing your county, highways 50 and 65. You have a total of 65 miles of major highways built at a cost of \$2,472,050. There are some counties in this state that do not have as much as one mile of concrete roads. You also have 99½ miles of state-built farm-to-market roads costing \$761,337.

Told of Allotment

He said, "It is my feelings you folks in this county want to know what this proposed new road program is going to mean to you." He related under the present federal aid and state allotment, Pettis county would receive annually \$93,237.92 for farm-to-market roads and an equal amount for the new low-cost state rural roads. This is a total of \$186,475.84 per year. This would enable your county to build 12 miles of farm-

Docket Set For Feb. Term Circuit Court

The February term, civil division, of the Pettis County Circuit court was opened this morning with Judge Dimmitt Hoffman sitting on the bench. The court set several cases for trial, dropped some for want of prosecution, and recorded dismissal of other cases.

Cases taken up are: **Alberta S. Brim Chaney vs. Lyle Brown**, scire facias (to revive judgment) dismissed by the plaintiff.

State of Missouri vs. H. C. Spears, sales tax, dismissed for want of prosecution.

Leo's Petroleum Co., Inc., vs. Maurice S. Alvin, accord, dismissed for want of prosecution.

Frank E. Humphrey vs. Pittsburgh Corning Corp., a corp., et al., damages, dismissed for want of prosecution.

Cecil Shull vs. Reba Harmon, breach of contract, dismissed by plaintiff without prejudice.

Mrs. Bessie Copeland vs. Elton Wilton Teter, and **James M. Copeland vs. Elton Wilton Teter**, damages, both cases dismissed by the plaintiff.

W. H. Fewell vs. John Taylor, damages, plaintiff filed application for change of venue from the Pettis county court.

Ida Mae Lambeth et al. vs. Gertrude Butcher et al., partition; **Gwendolyn Veta Reed et al. vs. G. S. Haywood**, trustee, et al., to determine title; dismissed for want of prosecution.

Mildred Simons, a minor, etc., divorce from Raymond Simons, dismissed by plaintiff.

J. W. Walton vs. Nell M. Walton, divorce. Plaintiff dismisses action, defendant dismissed cross-bill.

Nettie K. Johnson vs. Guy W. Johnson, divorce, dropped from the docket.

Amul H. Moore vs. Frances Irene Moore; Nina Moon vs. Omar Moon, divorces, dropped from the docket.

Viola E. King vs. Richard K. King; Opal Comer vs. LeRoy Comer; Esther M. Smith vs. Maurice D. Smith; Violent Swanson vs. Lawrence Swanson; John H. Woodward vs. Vesta Woodward; Marie Garrison vs. Woodrow W. Garrison; Marjorie M. DeLapp vs. Walker E. DeLapp; Vera Iva Mueller vs. Earl W. Mueller; all divorce cases, dismissed by the plaintiff in each case.

Homier G. Williams vs. Betty Jean Williams; Carl Newbill vs. Alberta Newbill, divorces, dropped from the docket.

THE SEDALIA DEMOCRAT Sedalia, Mo., Monday, February 6, 1950

OBITUARIES

Dr. Edward H. Schafer

Dr. Edward H. Schafer, for many years a practicing physician in Sedalia, died at 3:00 o'clock Sunday afternoon at his home, 809 South Lamine avenue. Funeral services will be held at 1:30 o'clock Tuesday afternoon at the Gillespie funeral home. Burial will be in Crown Hill cemetery.

Dr. Schafer was born in Dunkard, N. Y., on November 7, 1867 and came to Missouri in his youth. He was active in the practice of medicine at Kansas City and the last 28 years he has lived in Sedalia where he was active in his profession until only a few years ago.

Dr. Schafer was a member of the Evangelical and Reformed church, the Masonic lodge, the Knights Templar and Eastern Star.

He was married to Mildred Birdie Stotts Sedalia in 1912 and she preceded him in death in 1947.

Mrs. Catherine Renfrow Service

Funeral services for Mrs. Catherine L. Renfrow, 235 South Missouri avenue, who died at the Bothwell hospital Friday were held at 10:30 o'clock this morning at the McLaughlin chapel, with the Rev. Roy L. Bowers, pastor of the First Methodist church, officiating.

Palbearers were Ernest Thompson, Jr., Emmett Hurley, William P. Hurley, Herbert Seifert, Pinkney Miller and Herman Bloess.

Organ music was by Mrs. C. D. Demand.

Burial was in the family lot at Crown Hill cemetery.

Those from out-of-town here to attend the funeral were her daughter, Mrs. Lewis Walch and Mr. Walch, of Cedar Rapids, Iowa; Mrs. William Benn, St. Louis; Mrs. Pearl Newman, Kansas City; Mrs. Frank Bergfelder and daughter, Patty Ann; Mr. and Mrs. Ray Renfrow, of Jefferson City, and Mrs. Annie Reichel, of McGirk.

Charles William Chappell

Charles William Chappell, route 4, Sedalia, died at his home at 3:00 o'clock Sunday afternoon of a heart attack.

Mr. Chappell was born June 28, 1873, at Taylor county, Ia., the son of William C. and Martha Rogers Chappell. He moved from Iowa to Sedalia in 1903 and to the farm home where he died, in 1910. On January 17, 1906 he was married in Indian Territory, Okla., to Miss Bambana Amytis Pickett, who survives him.

Surviving besides his wife are a son, Orin Wilson Chappell, of the home, a daughter, Mrs. Lucretia Hoffman, wife of Philip Hoffman, 617 West Seventh street, and five grandsons, Clifford, Ray and Richard Chappell and Buddy Phil and Arthur Chappell Hoffman.

Mr. Chappell was preceded in death by his mother in 1922, his father in 1933 and an only brother, Bert A. Chappell in November 1940.

Funeral services will be held at McLaughlin's chapel at 2:30 o'clock Tuesday afternoon with the Rev. Roy L. Bowers, pastor of the First Methodist church, of which he was a member, to officiate.

Burial will be in Memorial Park cemetery.

The body is at the McLaughlin chapel where it will remain until after the service.

Mrs. Margaret Anna Mueller

Mrs. Margaret Anna Mueller, 90 years old, died at her home at Lincoln, Sunday morning at 10:30 o'clock.

She was born in Benton county September 17, 1859 and spent practically her entire life in Benton county. In the year 1880, she married Claus Mueller and to this marriage were born 10 children, all of whom survive.

Mr. Mueller preceded his wife in death, in January, 1943.

A brief funeral service will be held Tuesday afternoon at 1:30 o'clock at the Reser funeral chapel at Lincoln. At 2:00 o'clock, services will be conducted by the Rev. R. H. Beck at the North Lutheran church. Burial will be in the church cemetery.

Palbearers will be William Mueller, Alfred Muller, Henry C. Mueller, Ernest Heffe, Paul Ram-bow, and George Richter.

Mrs. Sarah McGowan Shockey

Mrs. Sarah McGowan Shockey, former Sedalia, died at the home of her daughter Mrs. Catherine Hemmingsway, in Bound-brook, N. J., Saturday of a heart attack according to word received by her brother Arthur C. McGowan, 1111 West Sixth street.

Funeral services will be held in Warrensburg at 1:30 o'clock Tuesday afternoon and burial will be beside the grave of her husband in the cemetery at Warrensburg.

Surviving besides her brother and the daughter at whose home she died are two other daughters Mrs. Harold Laver and Mrs. Maynard Hayes, both of Cleveland; a son Lovell Shockey of Cleveland and two sisters, Miss Daisy McGowan and Mrs. Helen Meyers, both of Cleveland.

She was married in Sedalia to Lovell Shockey, who preceded her in death several years ago.

N. M. Cannon

N. M. Cannon, Sr., died at the home of his daughter Mrs. Lola Bell, 301 West Morgan street on Sunday afternoon at 4:00 o'clock.

Besides his daughter, two sons, N. M. Cannon, Jr., of Sedalia and George Cannon, stationed with the army of occupation in

Names Board of Three to Look Into Issues That Are in Dispute

(Continued from Page One)

Mr. Truman talked the situation over with Democratic congressional leaders shortly before invoking the T-H law.

After the hour's White House conference, Speaker Rayburn (D-Tex.) told reporters: "He (the president) authorized us to say he will enforce the law."

Asked if there was any thought of government seizure of the mines, Rayburn said, "No, no."

Mr. Truman's action points to some climax soon in the struggle that has gone on between Lewis and his miners, on the one hand, and the coal interests on the other since last June when the old mining contract expired.

Two Babies Were Baptized Sunday

Two babies were baptized at Sacred Heart church Sunday morning by the pastor, the Rev. Andrew J. Brunswick. They were:

Paul Laurence, five weeks old son of Mr. and Mrs. R. M. Dillon, 810 South Barrett avenue. Sponsors were Mrs. Dillon's sister, Mrs. James Crahan and Mr. Crahan of Guam; Mr. and Mrs. Dillon serving as their proxies.

Marian Michele, infant daughter of Mr. and Mrs. John J. McGrath, 1404 West Fifth street. Sponsors were Miss Rosemary Burrows and Dr. W. A. Beckmeyer.

Judge Berry Has Cold

Judge Harry O. Berry, 601 West Third street, was unable to conduct Police Court this morning, due to a severe cold. Judge Berry will be confined to his home for several days.

Paid Wolf Bounty

Larry Walk, route three, was paid ten dollars by the county court this morning as a wolf bounty for the scalp of an old wolf taken to the office of County Clerk James Green.

A Beer License Issued

A 32 beer license was issued by the County Clerk this morning to Raymond E. Simms for the Simms 66 Cafe at 3201 East Twelfth street. The license expires on August 8, 1950.

Grass Fire, No Damage

The fire companies were called to the residence of Herb Studer, 2001 West Eleventh street, where dry grass had caught fire from a trash fire. The alarm was received at 2:16 o'clock. No damage resulted.

Marriage License Issued

Oval McClain, Arrow Rock, and Lydia Jacoby, Marshall.

Bothwell Hospital Notes

Dismissed: Wilford Fick, Montrose; Thomas A. Miller, 1321 South Ohio avenue.

Admitted for medical treatment: Mrs. Eva Read, route 4, Sedalia; Mrs. Mary Cramer, 1532 East Fifth street and Howard Wells, 1315 South Grand avenue.

Admitted for surgery: Oscar R. Martin, route 1, LaMonte and Mrs. Rudolph Moore, 104 East Jefferson street.

Attempt to Enter Middleton Gun Shop

An endeavor to break into the Middleton Gun Shop, 321 East Main street, was made sometime Sunday. The police officer on the Main street beat, in checking various stores, noted an east window on the building had been tampered with.

The building was entered about a week ago, at which time several guns were stolen.

Undergoes Operation

L. L. Anthony, 215 East Saline street, underwent a second operation at the Research hospital in Kansas City this morning. His daughter, Mrs. Lowell Amos, 403 West Fifth street, is in Kansas City with her father.

St. Louis Cash Grain

Pettis County Farm and Home News

Roughage In The Project Of Feeding Steers

Gain Should Be At A Pound To One And Half A Day

A 4-H project called the Economy Beef Production Project or better known as the Feeding Steers project is gaining in popularity among Missouri club members. This project was designed to give more practical experience in handling cattle than the Fat Calf Project, states the County Extension office.

To carry this project the 4-H member secures five or more calves, and instead of full feeding them throughout the feeding period, he aims to make maximum use of good quality hay and excellent pasture.

The object is to produce steers that will grade good after a winter feed of good quality roughage, summer grazing on excellent pasture and a short feed of approximately 90 days in the fall.

First of all, this project requires steers of choice type and quality. To start the project, 400 to 500-lb. steer calves should be secured. October is usually the time of securing the calves, so that some gain may be made before winter.

The calves should be carried on pasture as long as they will gain at the rate of one pound or more per day. This pasture can be green growing bluegrass, small grain, or any good grass and legume pasture mixture.

During the winter months the calves should gain from 1 lb. to 1½ lbs. per head per day. Rations that will give about this gain are: Corn silage and alfalfa hay; corn silage, alfalfa hay and 1 lb. of cottonseed meal or soybean meal; or sorgo silage, lespedeza hay, 2 or 3 lbs. corn, plus 1 lb. cottonseed meal or soybean meal.

Ton Increase Gain
A full feed of good quality legume hay plus 2 or 3 lbs. corn per head per day will also give a good average daily gain.

Fed the above feeds during the winter, the calves should weigh approximately 550 lbs. when pasture is ready by mid-April.

The cattle should be carried on the best pasture available, which may be small grain, alfalfa-brome, ladino brome, or other good grass and legume mixtures. Bluegrass may be used as long as it is green or until it heads. Then a legume pasture such as lespedeza should be available. If alfalfa-brome is used the brome may become dormant in the summer, but if the pasture is half alfalfa, the alfalfa will carry the cattle in good shape.

To make yearling steers grade Good by December 1, they will have to be on excellent pasture and plenty of it.

If lespedeza is used, the cattle should be turned on while it is small, so they can keep it down and it will not become tall and stemmy.

The first of September the cattle should be started on corn. Feed only about 2 lbs. of corn per head per day to start and gradually increase the amount until the cattle are getting all they will eat.

The cattle should be on full feed by October 1 and brought into a dry lot. Protein supplement should be added to their corn at the rate of about 1 lb. of cottonseed meal or soybean meal for each 400 lbs. of body weight.

The natural tendency of a yearling steer is to grow instead of fatten, so first quality roughage and pasture should be used at all times. Not only should the pasture be of first quality, but there must be plenty of it.

Other points of efficient beef production need attention also. Provide plenty of fresh water at all times. Supply a mineral mixture composed of two parts feeding bonemeal and one part salt. Shelter from storms in the winter and provide shade in the summer.

Protect from lice in the winter by spraying with DDT or BHC, and control horn flies in the summer.

To make this project succeed requires choice quality calves to start with and calves that weigh 400-500 lbs. or more. Calves with growth and not too much fat offer the best chance.

First quality feed must be available and the cattle must gain during the winter, as they will do if the feeding recommendations given above are followed.

Latin Lives in Capital

WASHINGTON—(AP)—The way it's taught here, Latin is far from a "dead" language. About 11 per cent of District of Columbia high school students signed up for Latin, and 15 per cent of junior high school students.

Miss Emilie M. White, head of the district schools foreign language department, has carried out a policy of making Latin "live" by introducing students to words and phrases in modern usage, like "habeas corpus" and "ex post facto."

Get Rid Of Cockroaches By Use Of Spray.

A pest that arouses the housewife's ire is the cockroach. Once they get started in a home, they are difficult to eliminate.

However, now with the insecticide, Chlordane, you can get rid of cockroaches much more easily than before, says the County Extension Agent. Spraying a solution of 5 per cent Chlordane in a deodorized kerosene base on cabinet shelves, along the base of walls, and other such places is recommended. One spraying will last for a month if the spray film is not disturbed. Virgil Burk, Missouri Extension Entomologist, says this spray also is effective with spiders, bed bugs, silver fish and other such pests.

Soil Samples Are Brought In For Testing

Interest In The Balanced Farming Program Grows

Again in 1950 major interest among Pettis County Balanced Farming Association members is in water management. However, interest has increased several fold in obtaining soil tests and in using heavy applications of fertilizers.

Many of the association members are taking notice of the potash strike and the certainty of a potash shortage soon by ordering their mixed fertilizers now. Nitrogen has always run short and several folks are also ordering their nitrogen for corn and as top dressing for small grain now too.

Brought In Seven Soil Samples
Soil samples brought in to date for testing include T. W. Cloney three, Roy Petty two, and William J. Lamm two. At least fifteen additional members plan to bring in samples as soon as the ground thaws and dries enough to get representative samples.

18 Plan Water Management
Folks who have planned terrace outlets, terraces, diversions, ponds or a combination of two or more of the above include J. H. Bagby-Forest Miller, Green Ridge; Ivan Berry, Sedalia; Joe Elliott, Windsor; Fairfax Brothers and Dr. R. E. Gouge-Richard; Kirschner, Sedalia; Ralph Harrington, Beaman; William J. Lamm, D. M. Overstreet-Bill Zinn; Roy Petty and John Ryan, Sedalia; William E. Sawford, Otterville; John and Ray Shepherd, Windsor; Clarence Shireman, Houstonia; E. W. Thompson-Jesse Dowdy, Sedalia; J. E. Tolson, Houstonia; George Trader-C. E. Wells, Sedalia; Dr. A. L. Walter-Kappelman Bros. La Monte; and Tom Yeater, Sedalia.

Considerable Interest In Clean Pasture For Hogs
Several members are planning clean pastures for their hogs. Forrest Miller was assisted in laying out three 3 acre pastures just after the start of the Association Year on December 1. A half acre of pasture will take care of a sow and pigs so a three acre pasture will accommodate six sows.

Other interested in plans to date include Elliott, Fairfax Bros., Harrington, who laid out his first pasture last year, Lamm, Sawford, Shireman, Tolson and Walter-Kappelman.

Home Improvements Planned
The home side of Balanced Farming includes modernizing the home to save steps and labor. Home Agent Lillian Watkins assisted the Lamm's with the kitchen plans recently and expects to help the Fairfax's with similar work soon. The Pettys plan to use the Farm Bureau septic tank forms to install a concrete septic tank. Several folks who were assisted with plans last year hope to get them carried out this year. They include the Millers, Harringtons and Tolsons.

Project Leaders Training Meet
On Wednesday, February 15, an all day training meeting for 4-H livestock project leaders will be held by the County Extension Agents and Mr. E. S. Mattison, livestock specialist from the University of Missouri. The meeting will start at the John Sneed farm northeast of Sedalia at 9:30 a. m. During the day leaders will receive training in livestock management techniques and will have an opportunity to learn new methods in the care and handling of beef, sheep and swine by actual participation. Three farms will be visited during the days program. In addition to the Sneed farm stops will be made at the Harry Runge farm and at the E. L. Durlay farm.

The meeting will provide leaders an opportunity to receive training in those things which they are expected to teach 4-H club members enrolled in livestock projects.

Everyone attending should bring their own lunch.

Most easterly point in North America is Cape Charles, Labrador.

Mystery Farm Pictures in Central Missouri---

Whose farm is it? Occupants of the above farm home may have wondered this spring about a plane buzzing low over their buildings. The picture explains it. The airplane pilot didn't know whose farm it was. The photographer didn't either. The two of them just flew around the Central Missouri area served by the Sedalia Democrat-Capital newspapers and took pictures. They couldn't take pictures of all

the farms but they got as many good shots as possible during the light time.

So about once a week hereafter, until the pictures run out, the Sedalia Democrat-Capital will print these farm home pictures as a news feature. The newspapers would like to know whose farm homes they are.

The Mystery Farm pictured in last week's Democrat-Capital is

owned by Mr. and Mrs. George Workman, route 2, LaMonte, 12 miles west of Sedalia.

Working the 53 acre farm with his father is a grown son Larry Baughman, who came to the farm home after serving in the U. S. navy. They raise a little corn, oats and wheat, and have some cattle.

Mrs. Workman is a retired pipefitter on the Union Pacific railroad at Omaha, Nebr. Larry

Monte was his home town and when he retired he decided that Omaha, and the several other towns he had lived in, still did not look as good to him as LaMonte. So back he came. Mrs. Workman is a native of Omaha but she is well pleased with their farm home near LaMonte, too, as is the son.

Mr. and Mrs. Workman have three other children, besides Larry, all married.

Offer Of Milk Testing Service

Many dairymen likely will be interested in a new service being offered in Pettis county on testing their cows for production. This new program is being offered now. The work will be in charge of Eugene Dowdy who is also the Supervisor for the D. H. I. A. This new service will supplement but not provide the service offered by the D. H. I. A. It is unofficial but offers an opportunity for a dairyman to determine the production on each of his cows. The cost is less. It is the hope of the officers of the D. H. I. A. and the County Extension office that this service will lead those who secure this service into the better program offered by the D. H. I. A.

This plan requires the owner to weigh each cow milk one day a month. He takes a sample of the night and morning's milk. The tester picks these samples up and takes them to his home and runs a test for fat. He reports by mail the test on the milk the pounds of fat each cow produced for the month. Several herds are now on this test and there is room for more as there is in the D. H. I. A. For further information contact Eugene Dowdy at Green Ridge or the Extension office at Sedalia.

Reports On Tests At Soils Meeting
How yields were boosted by using fertilizer according to soil needs as shown by soil tests will be reported on by some Pettis county farmers at the Soils and Crops Conference February 8 at the Convention Hall, Sedalia. Also two or more farmers will report on their good experiences with grass silage at the Conference.

These are some of the features of the 26th Annual Soils and Crops Conference.

The principle speaker will be Mr. Fleetwood, Field Crops Extension Specialist, University of Missouri. In his discussion he will help answer many questions now being asked at the Extension Office about renovation of pasture.

Some of these questions are: "What grass shall I use?" "Should I use Brome, Timothy, Orchard grass or Fescue?" "What legume shall I use besides Ladino Clover?" "Should I use alfalfa, lespedeza, Birdsfoot trefoil?" "What rate to apply?"

Another feature of the day is the program during the noon hour. Mr. Noel Tweet, president of the Sedalia Chamber of Commerce will discuss the subject of "What the location of the Air Academy means to the farmers of Pettis county." Those who register by 11 a. m. will be served a lunch furnished by the Sedalia Chamber of Commerce.

Don't forget the date February 8 and the place, Convention Hall, Liberty Park, Sedalia, Tell your neighbors.

Report From D. H. I. A. And Suggestions Made

The five high herds in butterfat production in the Pettis County D. H. I. A. for January, belong to Harold Alcorn, John Blum, Eugene Helman, Henry Alt and Lee Yeater and Son. The fat production per herd as listed above was 25.8 lbs., 25.2 lbs., 25.0 lbs., 22.9 lbs., and 21.5 lbs. The number of cows in each herd is 15, 18, 26, 23, and 43.

Twelve out of the 203 cows in the association produced over 50 lbs. fat each for the month. Eugene Helman had the highest producing cow, Susan, with a production of 62.3 lbs. and 1271 lbs. milk. He had another cow, Nancy, that was 7th. She produced 55.6 lbs. fat in 1159 lbs. milk. John Blum's cow, No. 73, was second high cow producing 60.9 lbs. fat in 1603 lbs. milk. Mr. Blum's cow, No. 79 was 6th producing 54.4 lbs. fat in 1007 lbs. of milk.

Peters and Van Dyne had the 3rd high cow, Josey, which produced 59.2 lbs. fat in 1445 lbs. milk. The 4th high cow belonging to Lee Yeater and Son produced 57.3 lbs. fat in 1686 lbs. milk. Their cow, Granny produced 56.6 lbs. fat in 1159 lbs. milk. Also their cow 06 produced 53.8 lbs. fat in 1494 lbs. milk and Old Bob produced 51.6 lbs. fat in 1228 lbs. milk for them.

Harold Alcorn's cow Dora was 5th in production with 56.8 lbs. fat in 1159 lbs. milk. He had another cow called Peggy that produced 50.4 lbs. fat in 970 lbs. milk. Henry Alt's cow called Butter Queen was 8th with a production of 54.8 lbs. fat in 1370 lbs. milk.

If not already planned for it is time to plan for a pasture program for your dairy cows. Nothing can be done to provide April pasture for 1950. Sweet clover seeded

this spring however will provide pasture in April in 1951. Rye seeded last fall would furnish pasture this April. Many dairymen and the Extension Agent agree with them—believe they should have both these pastures in April. It's still time to provide for July and August pasture. Both lespedeza and Sudan should be available. Then for fall pasture some first year sweet clover and fall seeded rye should be provided.

Blue grass is best used in May and June and in the winter. Mixtures of timothy or brome or orchard grass with a legume such as Ladino or Timothy or alfalfa can be used at various times.

Farmers' Forum Will Be Held

More and more does public policy affect agriculture. All of us feel perplexed at times when they consider many of the big problems that confront us today.

Realizing this, the Missouri University, College of Agriculture, will hold a Farmers' Forum on Public Policy on March 8 and 9 and everybody interested is invited to attend.

The Farmers' Forum is bringing together some of the top authorities in the nation. Representing both agriculture and industry they will lead the discussions on the general topic of "Our American Problems of Economic Stabilization and Conservation."

Among the several featured speakers are J. L. McCaffrey, president of International Harvester Company. He will discuss "Agricultural Instability as a Hazard to Industry." Dr. Tom Cowden of Michigan State College will lead the forum on the topic of "Our Agricultural Record in Handling the Problem of Instability." There will be other well-known speakers on vital subjects. So plan now to attend this forum at the University of Missouri, March 8 and 9.

All houses of religious communities are monasteries, whether the inhabitants are men or women, according to Encyclopedia Britannica.

Order For Trees By February 15

4-H club members or others who wish to make forest tree plantings, multiflora rose plantings or special wildlife plantings should place their orders before February 15 according to the Missouri Conservation Commission.

The tree species available this year include shortleaf pine, jack pine, virginia pine, redcedar, scotch pine, black locust, pitch pine, catalpa, and osage orange. These cost \$6 per thousand. Multiflora rose plants can also be ordered at the same price, and there is a special wildlife bundle and a quail food and cover plot bundle. Stratified black walnut seeds also are available.

You can order any of these through the county extension office. The extension office for

Fully 450 At Water Meet

Talks Given And Pictures Shown At The Armory

At least 450 people attended the first annual Water Systems Meeting held at the Sedalia Armory Friday, January 27th.

In spite of the fact that it was sometimes difficult to hear the speakers, because of the acoustics of the building, the folks in attendance were very attentive and seats had to be added throughout the day to accommodate additional visitors.

Have Full Program
The program included a panel discussion by local well drillers, three talks, two by specialists from the University of Missouri College of Agriculture and one by a representative of the State Board of Health and two colored motion pictures. One of the pictures was entitled "Running Water on the Farm" and the other "A Farmer Builds a Septic Tank."

Well Drillers Tell Experiences
Two local well drillers, Carl Heuerman of Sedalia and James Parkhurst of Hughesville and a

former driller, Oscar Monsees of Sedalia gathered around a long table with drillers from Warrensburg and Marshall to discuss well drilling problems in Pettis county. These out of town drillers, most of whom have done some work in Pettis county include: Fred Allen, Warrensburg and John W. Thompson, Robert Thompson and W. C. Thompson and son, all of Marshall. Ralph Ricketts, Extension Agricultural Engineer from the University of Missouri College of Agriculture led the discussion.

Eight Local Firms Exhibit Merchandise
Miss Madonna Fitzgerald, Home Management Specialist from the University of Missouri College of Agriculture, had the highest praise for the exhibits. She said "They are the finest I have seen at any similar meeting anywhere."

The exhibitors themselves seemed well satisfied with the interest shown in their displays by those in attendance. One of them said "I believe our firm contacted more prospective customers in this one day than we did in a whole week out at the fair last summer."

The eight exhibitors included: Adams Farm Supply Store, Cash Hardware, Deck's Home Appliance, McLaughlin Bros., T. H. Hardy Electric and George Suter Plumbing.

Two local well drillers, Carl Heuerman of Sedalia and James Parkhurst of Hughesville and a

wards the orders to the Missouri Conservation Commission, which ships the plants. Remember that if you want any of these, you should order by February 15.

A. F. Artus, Missouri Conservation Fieldman for this district, has informed the extension agent that his services will be available for working with 4-H clubs in making demonstration plantings of multiflora rose and other species. Any interested 4-H club members should contact the extension office concerning this.

VA Program To Close Soon

WASHINGTON, Feb. 6—(P)—The Veterans Administration is getting ready to close up its \$30,000,000,000 free schooling program.

A regulation to be issued April 1 will bar veterans—with certain exceptions—from the government's training and education program unless they enroll by July 25, 1951.

Further rules changes will make it hard for veterans to change their present courses, and will prevent them, after completing one course, from starting another, even though they have some unused school credit.

"The veterans readjustment act specifies that a veteran must start his schooling within four years after discharge or after July 25, 1947, the official end of the war, whichever is later.

The VA estimates that if the 15,000,000 eligible veterans took all the training they are entitled to, it would cost the government \$60,000,000,000. Actual cost of the program from its beginning to the 1956 windup date is expected to range between \$25,000,000,000 and \$30,000,000,000.

The next six years will cost about \$16,000,000,000, VA estimates.

Teacher Found Dead
DONIPHAN, Mo., Feb. 6—(P)—Miss Violet Burlison, 48, English teacher in Doniphan high school, was found dead in a shallow spring on the farm of her brother, Perry Burlison, near here Sunday.

Dr. J. E. Williams, coroner, said death was by drowning. An inquest is not planned.

Miss Burlison had been in poor health since Jan. 20, last day she taught school.

Priest Visits Ingrid Bergman

ROME, Feb. 6—(P)—Ingrid Bergman was visited this morning by a Catholic priest, heightening speculation that she might be arranging the baptism of her baby son, Robertoino.

Yesterday she saw a priest and two monks in her three-room maternity apartment at Santa Margherita clinic.

Italian film director Roberto Rossellini, whom Ingrid reportedly has named as the father of her son and whom she plans to marry when she gets her divorce from Dr. Peter Lindstrom, was believed to have left the clinic just before dawn.

Rossellini spent the week-end there with Miss Bergman.

Associates said Rossellini was very busy with legal affairs, in addition to his work on a film of the life of St. Francis of Assisi.

Shoe Company Shows Drop in Profits

ST. LOUIS, Feb. 6—(P)—The International Shoe company reported today a drop of 44.4 per cent in their net profits last year.

The firm's annual report showed net profits dropped from \$13,820,197 in 1948 to \$6,682,359 last year.

"The year recently ended was one of readjustment from an economy of scarcity to one of plenty," the report stated.

The company laid off 2,000 employees during the year and closed three shoe factories. The report predicted continued high prices.

THE COST of our Nation's Security

...must be shared by ALL!

Unless all pay their fair share, you must pay MORE. Right now, Congress is considering increasing federal income taxes on present taxpayers to meet the terrific costs of paying for the last war . . . guarding against another.

...yet some big business corporations pay little or NOTHING

Corporations engaged in commercial, profit-making business—such as Co-operatives, Foundations, even some colleges and universities—are permitted by law and outdated Treasury regulations to escape all or most of income taxes on business income and profits. The billion dollars a year that they are able

to dodge in income taxes is now added onto what the rest of us must pay. Now Congress is being asked to add still more to the tax burden you are bearing. Congress should TAX THE UNTAXED FIRST before increasing federal income taxes on anyone.

WRITE your Congressman and Senators—ask them to

tax the untaxed...now!

HALF-CENTURY HIGHLIGHTS

OLD "NUMBER 999" was the wonder engine that had tongues wagging and heads shaking at the turn of the Twentieth Century. No wonder; for the old steam engine, used to haul the incredibly fast Empire State Express, had a few years before barreled down the tracks to set a world speed record of 112.5 miles an hour on a run between Batavia and Buffalo, N. Y. Below is today's Twentieth Century Limited, hauled by a modern counterpart of old 999, a Hudson-type steam locomotive costing about \$140,000. Engine 999 cost about \$13,000. At the beginning of the century, railroads were still using many old-time locomotives with fancy stacks and cowcatchers. Today, steam power is giving way to electric and Diesel-electric power, along with other refinements in railroading.

Community News from LINCOLN

Mrs. Herbert Hansen
The M. F. A. Producers Exchange No. 84 of Lincoln and Ionia held its annual election for the purpose of electing seven directors on January 28th, with approximately 700 people in attendance.

Due to the fire on the night of January 19th, which destroyed the Missouri Farmer associations I. H. C. building the meeting was held at the Lincoln high school auditorium.

Voting hours were from 9:00 o'clock to 1:00 o'clock. The 12 candidates selected by a special nominating committee at a meeting held previously were, Harry Eickhoff, Martin Schnakenberg, Wilbur Keuper, Rudolph Ram-bow, Erhart Kaiser, Ed Lumpe, Oliver Frisch, L. K. Mehrens, George Richter, Winston Rank, G. H. Meyer and Paul Keuper. The clerks were W. E. Kreissler and Gene Roberts.

The morning program was opened with a prayer led by Ormal Creach. A vocal solo was rendered by Blanche Roark. There was group singing by some of the school children from Mrs. C. D. Brill's room. Musical numbers were presented by Junior Bohon, Earl and Blanche Roark, all of Lincoln and Joe Berry of Warsaw. A special March of Dimes program was held at the morning meeting. Guest speakers were Mrs. E. Nelson and Dr. James A. Logan, both of Warsaw, who were introduced by John Love, general manager over both the Lincoln and Ionia units and master of ceremonies for the day.

Judy Bird, five, polio patient, who is now well on the road to recovery, was introduced by Dr. Logan. Judy is the daughter of Mr. and Mrs. Gled Bird of Warsaw. A special gift was presented to her by the Producers Exchange.

Mr. White of Warsaw was responsible for the Cat drive. Extra cats were brought to the Produce building, where 50 cents was contributed to the March of Dimes for each grown cat received and 20 cents for each kitten. The cats

will be shipped to a distant city, where they will be used for research purposes.

Following the program, Mr. White of the Benton County Guide, reported that a total of \$148.85 was contributed to the March of Dimes within 30 minutes after the close of the program.

Mrs. H. B. Lynch was hostess to the Bethel Happy Hour Extension club on the afternoon of January 26th at 1:00 o'clock. The meeting was opened by Mrs. Joe Bitz, the retiring president, who had served for two years, being present at every meeting with the exception of one. After expressing her appreciation to club

Let's set the record straight on telephone wages and working conditions

In an attempt to justify the nation-wide strike which they announced will begin Wednesday, February 8, national leaders of the telephone union have made a number of erroneous and misleading statements about telephone wages and working conditions.

Here are the facts about some of these statements.

Union leaders claim:

"Prior to the war phone workers occupied seventh place in a series of 27 typical industries according to the U. S. Bureau of Labor Statistics. Today phone workers are in 25th place . . . 'Switchboard operators earn on an average only about \$38 a week.'"

The FACTS are:

Reports of the Bureau of Labor Statistics are available to everyone. No list of "27 typical industries" is given in them.

This is what those reports do show:

1. Wages of this company's plant craftsmen rank seventh from the top in the latest reports on production workers in more than 200 separate industries. Their average weekly earnings are \$65.48.
2. The average weekly earnings of switchboard operating employees in 500 cities, large and small, served by this company are not \$38 but \$43.32. This compares with an average of \$42.37 for clerical workers in the 17 largest cities in the country surveyed last year by the Bureau of Labor Statistics.
3. To arrive at their claim that telephone workers have slipped from 7th to 25th place, union leaders have compared average earnings figures for two different periods which the Bureau of Labor Statistics clearly warns are not comparable.

Union leaders claim:

"While other unions have been able to obtain wage increases high enough to maintain or improve their real wage situation, real wages in the telephone industry have been steadily going downward."

The FACTS are:

Wage rates for this company's employees have been increased 94.4 per cent since January, 1941 . . . while the cost of living increased 66 per cent in the same period.

This obviously represents a gain, not a loss in real wages for telephone employees.

Thus, even at today's higher prices, telephone people can buy substantially more and live better than they could ten years ago.

Union leaders claim:

"Wage progression schedules are far too long in the telephone industry. It takes a telephone operator, a plant craftsman, or telephone clerk eight years to reach 'maximum pay.'"

The FACTS are:

Few industries assure the vast majority of its employees that within eight years they will be making top wage scale for their occupations in their towns.

Raises for telephone people come along regularly until they reach the top. Three fourths of this company's employees will get such increases within the next 12 months. The average per employee will amount to 5c an hour. They are a part of the contract. Employees don't have to ask for them or strike to get them.

The other one fourth are already earning top rates for their jobs right now.

In almost every other business an employee has to wait for an increase until an opening occurs in the ranks of better paid workers ahead of him.

Union leaders claim:

"One hundred thousand telephone operators will have become victims of unemployment introduced by technological changes during the next five years."

The FACTS are:

Today 70 per cent of this company's telephones are dial operated compared with 61 per cent ten years ago. Yet today this company employs about two and one-half times as many operators as it did ten years ago.

Union leaders claim:

"The Bell System pension plan is less liberal than the retirement plans recently agreed upon in a few other industries."

The FACTS are:

This company's benefit and pension plan has been recognized for years as one of the best and soundest in American industry. Employees have been enjoying its advantages since 1913 — advantages which workers in other industries recently have been going out on strike to get.

What other industries give all of their employees these things?

SICKNESS BENEFITS—up to a year's full pay, depending on length of service.

DEATH BENEFITS—up to a year's full pay, depending on length of service.

PENSIONS—at least \$100 a month, including social security, for every employee who retires at age 65 with 20 years or more of service. Many nonsupervisory employees will get substantially more. For example, a plant craftsman now age 40 with ten years' service and a basic wage of \$81 a week can expect to retire at 65 on a pension of \$150 a month, including social security.

Finally, the company's benefit and pension plan is noncontributory. The employees pay no part of the costs.

Union leaders claim:

"We think there is justification for higher wages in the telephone industry even if this means that the company must sacrifice part of the lush profits it has been able to maintain for years."

The FACTS are:

There are no "lush profits." The rate of earnings on the money invested in Southwestern Bell Telephone plant is at the lowest level in the company's history. Earnings on invested capital last year were only 3.86 per cent, compared with 7.57 per cent in 1939.

Union leaders claim:

"During the postwar period, the Bell System has successfully conducted an enormous rate increase drive. This already has boosted phone rates by \$350,000,000 annually and the company still is seeking further rate hikes.

"Financially it can afford to improve wage levels."

The FACTS are:

For the Southwestern Company, the present cost of wage increases granted during the war and postwar years to employees is \$76,000,000.

That is two and one-half times the \$28,600,000 increase in telephone rates granted so far to the company.

Rate increases have not begun to cover the huge increase in wages, let alone all the other increased costs of giving telephone service. They have, in fact, been moderate. With earnings at the lowest level in the company's history and rate applications pending throughout our territory, there is clearly no margin to absorb a further wage increase. The cost would have to be paid by telephone customers.

Look at the record. Judge the facts. Then decide for yourself whether in a period of wage stabilization union leaders' demands for fourth-round wage increases justify a strike at the expense of the public.

Potatoes Given the Bird

DAVIS Calif. (AP)—Experiments here have dashed hopes that surplus potatoes could be used to fatten the large western turkey and chicken crops.

Potatoes, both raw and dried have been fed to gobblers and cacklers in extended experiments at the University of California College of Agriculture here. But the birds don't respond, reports poultry expert Frank Kratzer.

The trials were based on a tip from Europe, where potatoes are sometimes fed to chickens.

Faculty Play Five-Stars at Smith-Cotton

Pep Rally, Skit And Other Uproars Set for Wednesday

Basketball action at Smith-Cotton high school will resume hot and fast Wednesday night, when the faculty will play Williams' Five Stars. At halftime, there will be a giant pep rally for the varsity of S-C and a comedy skit by the faculty. Spokesmen for the faculty refused to say what the skit is all about, but added that it would be a riot.

The pep band under the direction of Miss Geraldine Teufel will play, the Spiz club will be the core of the cheering, there will be cheerleaders for both the faculty and Five Stars. This itself should provide good laughs for Miss Lois Gordon and Miss Carlidia Breckenridge, members of the faculty will head the cheering for the faculty.

The proceeds from the game will go to the fund for new curtains and scenery which have long been needed in the school auditorium.

Faculty Members in Game

It has been several years since some of the members of the faculty have played before a crowd and the Five Stars are hoping that they will suffer from stage fright, otherwise, they will make it hard on the Stars. Members of the faculty that will participate in the game will be John Allen, towering center who played college ball, Ralph Bowers will be at a guard slot. Bowers has played a lot of ball and was all conference M.I.A.A. for two years while at Cape Girardeau.

Howard Glavin, star of Maryville a few years back, will probably be a pain in the neck to the Five Stars, if he is hitting like he usually does. Joe Benson, principal, also attended Maryville and was an all-conference athlete in both football and basketball. He has put on a little weight since then and the Five Stars doubt if he is the flash that he used to be. Mr. Benson was caught shooting baskets with his old eye and the same accuracy in the gym, recently.

Emerson Matthews, a rough and tumble player, who comes from Maryville showed his ability in last year's game by hitting several baskets. Pinkney Miller says he will suit up for the game for the purpose of dragging the exhausted faculty members from the court.

Gerhardt Jaeger of the science department has been talking of the basket formula he has worked out for the faculty. His students think that the theory is a sure flop. Coach Dow will not be in town so he won't be able to don a uniform. One of the faculty stars has been left out by the request of the Five Stars because they didn't feel it was necessary to mention him, because everyone knows him and what he will do against the boys he has taught to play.

Five Stars Line-Up

The Five Stars will have all the advantage as far as being in condition. They will have 12 players suit up for the game and each one will be out to lay in on the teachers.

Myron Herrick plays both guard and forward. He has played "B" team ball and is a very good shot. Art Conley is playing post and for his first year in basketball, he's doing pretty good. Bill Wheeler has played "B" team and is a real play maker. Don Decker was on S-C varsity at the start of the year and his height will help the Stars get their share of rebounds. Don Dowdy, hustling forward, often hits hot streaks and will be out to give the faculty trouble. Dale Whitfield is probably the best ball player on the stars, and also plays for the Sedalia Harvesters. Bill Berry is another former varsity player and also plays with the Harvesters. Tiny Young comes from Smith-ton high school. Don Pummill is a hustler and likes the rough going. Gene Dowdy plays for the Harvesters and will see a lot of action if his trick knee is okay by Wednesday. Gene Williams has played for the Harvesters the past two seasons and has gained valuable experience there.

Frank Breen Claims World's Amateur Record in Horseshoes
ELGIN, Ill., Feb. 6—(P)—Frank Breen, 35, pitched a perfect game in horseshoes last night and claimed a world's amateur record.

Breen, chairman of the Central Association AAU horseshoe committee, threw 32 straight ringers in 32 shoes, or 16 straight double ringers.

Breen said it was the first perfect amateur game on record and broke the old record of 45 ringers in 50 shoes, set by Carl Lundgren of Detroit, in 1939.

Athletic Director Died Sunday Night
PHILADELPHIA, Feb. 6—(P)—Robert J. Schroeder, 39, secretary of the Philadelphia Athletics and a co-worker with Connie Mack for 48 years, died last night.

Disclosure of Schroeder's death was made by Mack today.

Schroeder had been in poor health for a long time.

Schroeder worked his way up from a peanut vendor to one of five positions on the board of directors of the Athletics.

\$100,000 Rookie

Here's the high-priced throwing motion of Paul Pettit, 18, and untied southpaw who got a \$100,000 bonus for signing with the Pittsburgh Pirates. Pettit is six feet one, weighs 205. In these pictures, made at Los Angeles, Calif., Pettit winds up and begins his throw. (AP Wirephoto)

Norway-Sweden Lead Ski Championships

RUMFORD, Me., Feb. 6—(P)—They awarded only individual titles in the world ski championships but if they did determine a team title it would be exactly as you figured — Norway and Sweden are far out in front.

With four of the five events in the Nordic phase of the games run off, Norway is leading with 40½ points on a basis of 10-6-4-3-2-1. Sweden is second with 34, followed by Finland with 22.

The United States is fourth with 3½, France fifth with 3 and Canada sixth with one. Denmark, Switzerland, Yugoslavia and Austria still haven't registered a point.

That tabulation includes the jump, in which four Norwegians broke into the scoring at Lake Placid, N. Y., and the 40-kilometer (25 mile) relay which Sweden won from Finland here.

Both events were decided yesterday.

Only race remaining on the program is the 50 kilometers (31 mile) marathon today.

St. Louis And Bradley Pace MV Conference

Co-leaders Are Matched at Home Tonight

DES MOINES, Feb. 6—(P)—Bradley and St. Louis appear likely to share the front spot in the Missouri Valley conference race for at least a week.

The co-leaders are matched at home tonight against Wichita and Tulsa, respectively. Wichita and Tulsa are deep in the cellar with 1-5 records. Wichita dropped its eighth straight game by a 61-47 count to Detroit last Saturday while Tulsa was losing a 57-56 contest to Drake in a double overtime.

Bradley hasn't been in conference play since it toppled St. Louis 54-45 Jan. 26. The Braves, however, picked up their 18th victory in 21 games with an 84-48 rout of Pitt last Saturday. Bradley expects to make its season mark 19-3 against Wichita.

Important Win For Billikens
Meanwhile, St. Louis got an important triumph over defending champion Oklahoma A & M, 41-29. It was the Billikens' first win over the Aggies in three years. The defeat slipped the Aggies into fifth place at 2-2.

Oklahoma A & M. hopes to bounce back into third place in its engagement with Drake tonight at Des Moines. The Aggies humbled the Bulldogs 56-27 in their first meeting but they are likely to find rougher going on the Drake court.

The Aggies play Detroit at Detroit and Wichita and Tulsa tangle at Wichita Saturday in other conference games this week.

The top non-Valley affair is likely to be the St. Louis-Notre Dame clash at St. Louis Saturday. Other games: Marquette at Detroit Tuesday; Pitt at Aggies Wednesday; Hawaii at Bradley Thursday; Bradley at DePaul, and Creighton at Drake Saturday.

Nine College Teams Are Set For Bids to National Meets

By Milo Farneti

NEW YORK, Feb. 6—(P)—If they don't fall apart in the next few weeks, nine college basketball teams are set for bids to national basketball tournaments.

The nine which have good enough records today to merit invitations to either the NCAA or National Invitation tournaments are:

Holy Cross (17-0), only major unbeaten five; Ohio State (13-3), Colorado (11-4), Denver (11-10) and Utah State (13-10).

FAR WEST—UCLA (15-4), Washington (16-5), Southern California (12-4), San Francisco (12-5) and Washington State (13-8).

About 25 other teams are playing good enough ball to displace the leaders in future rankings.

Some fine small college fives in addition to Hamline are Beloit (17-2), Marshall (14-3), Siena (18-3), St. Bonaventure (12-1) and Valparaiso (11-3).

Top Games Tonight
Top games tonight include Ohio State at Indiana, Oregon at Washington State, Vanderbilt at Auburn, Wichita at Bradley, Bowling Green at Loyola (La), Kansas at Colorado, Oklahoma A&M at Drake, Oklahoma at Iowa State, Louisville at Washington (St. L.), Wisconsin at Michigan State, Tulane at Mississippi, Missouri at Nebraska, Tulsa at St. Louis and Utah at Wyoming.

Of the finalists in the two major tournaments last year, not one has yet clinched a bid for the March affairs.

Three Major Competitors
Erratic Kentucky (16-4), which beat Oklahoma A & M for the NCAA crown, has three major southern competitors in North Carolina State, Western Kentucky and Louisville. The last named quintet dropped Duquesne from the unbeaten ranks Saturday night.

A & M (11-6) doesn't expect anything this year. San Francisco (12-5) defeated Loyola of Chicago in the NIT final here last March and may get a bid as defending champion. Loyola (9-11), like the Aggies, also isn't going anywhere.

Several other teams still are in the running for the 20 invitations open in the two major tournaments. Eight quintets will compete in the NCAA and 12 in the NIT.

They'll come, with some exceptions, from this listing of leading fives:

Ruling Is Holy Cross
EAST—Holy Cross (17-0), La Salle (13-2), Long Island U. (15-2), Duquesne (16-1), CCNY (12-2) and St. John's (18-2).

MIDWEST—Bradley (18-3), Ohio State (13-3), Kansas State (13-4), Indiana (13-2), Illinois (11-5), and Nebraska (11-4).

SOUTH—Western Kentucky (16-4), North Carolina State (17-3), Louisville (20-5), Kentucky (16-4) and Vanderbilt (12-6).

SOUTHWEST—Arizona (17-2), Texas Christian (11-6), Baylor (9-10), Texas A & M (8-10) and

Bulldogs Make MIAA Comeback

KANSAS CITY, Feb. 6—(P)—The troublesome Kirksville Bulldogs found themselves smack in the middle of the MIAA championship basketball race today.

After a slow start early in the season, Kirksville has come along fast and now has a 5-2 record, just one game off the pace being set by the Springfield Bears.

The Bulldogs pulled their second successive upset last Saturday night, beating Warrensburg 51-48 and leading all the way after the first ten minutes. Kirksville handed Maryville its first loss two weeks ago.

Maryville (3-1) which has a lead over Kirksville in the percentages, will be host to the Bulldogs tomorrow night.

Most heat this week will be on Maryville, which has road games with Warrensburg Friday and Springfield Saturday after taking on Kirksville.

In other conference games, Rolla will play at Warrensburg tomorrow and Rolla at Cape Girardeau Saturday.

The non-league slate finds Cape Girardeau meeting southern Illinois at Cape Girardeau and Kirksville playing at Quincy, Ill. college Saturday.

Springfield won its 5th league game, 64-46 over Rolla last Saturday. Cape Girardeaus beat Southwestern of Memphis, Tenn., 56-33, in overtime.

Conference Standings

W. L. Pct. PP OP

Springfield 5 1 533 284 236

Maryville 3 1 260 130 149

Kirksville 3 2 714 331 303

Warrensburg 3 2 600 264 232

Rolla Mines 1 3 167 251 352

Cape Girardeau 0 6 300 243 291

Gehrmann of Wisconsin easily won the mile run at the Michigan State relays in 4:12.7 for a new meet and fieldhouse record.

Nathaniel Hawthorne was born in Salem, Mass.

3 Conference Games Tonite For Big Seven

Missouri to Face Nebraska In Lincoln

By Skipper Patrick

KANSAS CITY, Feb. 6—(P)—Kansas State's Wildcats and Kansas University's Clyde Lovellette impose the top problems for other Big Seven basketball teams as the first half of the championship race is played out this week.

Kansas State, pacing the race with four victories and one loss, sits it out tonight while the other six members engage in conference competition.

The Wildcats humbled Oklahoma (1-4) by a 91-68 score at Manhattan, Kas., Saturday night. It was the most one-sided victory ever scored by Kansas State over an Oklahoma team.

Sparkplug for Jayhawks
Lovellette, 6 foot 8 ½ inch sophomore sensation, is making Phog Allen's Kansas Jayhawks a championship threat.

Both Nebraska and Kansas, tied for second place in the standings, will have an opportunity to gain a dead heat with Kansas State tonight.

Kansas meets Colorado (3-2) at Boulder, Colo., while Nebraska takes on Missouri (0-4) at Lincoln, Neb.

A third conference game tonight finds Oklahoma at Iowa State (2-3).

Tabbed the Terre Haute, Ind., (his hometown) "Terror," Lovellette is making a runaway of the individual scoring honors. He's picked up 326 points in 15 games compared to 243 for Nebraska's Milton Whitehead in the same number of starts.

In four league games for each team, Lovellette has scored 93 points, Whitehead 78.

Whitehead, only conference player to stop Lovellette this season and one of the best clutch players in the midlands, will lead Nebraska against Missouri at Lincoln, Neb., tonight.

Tough Foe for Missouri

Tied with Kansas at 3-1 victories for second place in the standings, Nebraska figures to handle Missouri (0-4) rather handily unless the invader can suddenly regain the form that brought it the Big Seven tournament title last December.

Missouri gets the only game against Kansas State this week, meeting the Wildcats at Columbia, Mo., Saturday. Nebraska begins a two-game southern stand the same night at Kansas. The Cornhuskers will play Oklahoma at Norman next Monday.

Iowa State and Oklahoma will meet at Ames, Ia., in the only other game of the week.

Colorado handed Missouri its fourth conference loss, 41-39, at Boulder last Saturday on Kendall Hills' fielder with four seconds remaining.

The Big Seven scoring leaders:

Wyoming's Post Offense Options Deal With Switches by Defense

By Ev Shelton

Wyoming Coach

LARAMIE, Wyo. —Wyoming alternates between its usual weave control and a post offense with any one of three or four players operating off the post.

Jerry Reed, at six feet eight, and John Pilch, six four and a half, are of course the most frequently used pivot men.

Run off of our post offense, the play shown in the accompanying diagram has three options. When the defensive man tries to stay with the shooter, the play is run as in the top diagram.

Forward Loy Doty, 1, passes to playmaker Keith Bloom, 3, and moves in to double screen for Arnie Flinn, 2, who comes around 1 and 3. Bloom dribbles in, passes to Flinn as the latter cuts by on his way in to attempt a shot.

When the defensive man covers off, the same play is worked successfully by 3 taking a return pass in under the basket, as in the lower diagram.

Bloom again takes the ball from Doty, who moves in to screen as before. Flinn, who incidentally is the only one of the five not used as a pivot, breaks around the two screens. After dribbling in, 3 passes to 2 while the latter comes around. While 3's man switches off on 2, the center, 4, moves out to the other side, and 3 breaks under the basket for a return pass.

Central Leads MCAU Conference

KANSAS CITY, Feb. 6—(P)—Six M. C. A. U. championship state basketball games are scheduled this week and the leading Central Eagles and third place Drury Panthers each will play in three of them.

Central 3-0 and Drury 4-1 will open the firing in a big way at Fayette tonight.

Drury has an especially hard week of work cut out. The Panthers play all their games on the road, meeting second place Culver-Stockton (5-1) at Canton Friday and Westminster (4-3) at Fulton Saturday.

After playing Drury, Central has road games with sixth place William Jewell (2-5) Thursday and last place Tarkio (1-6) Friday.

Culver-Stockton, which strengthened its second place rating last Saturday night in beating Tarkio 71-48, plays Westminster at Canton Wednesday before meeting Drury. The Wildcats have a non-conference game with the Peoria, Ill., Caterpillar Tractors away from home Saturday.

In other non-conference games, Tarkio will play at Parsons, Ia., college tonight, William Jewell meets Rockhurst at Kansas City Tuesday and Tarkio plays at

No. 3 is the playmaker.

When the defensive man covering 2 falls off and tries to break through the play, 2 uses the third option, stops outside and attempts a set shot.

Buena Vista (Iowa) college Saturday.

Golden Gloves Tourney Opens in Kansas City Tonite
KANSAS CITY, Feb. 6—(P)—Missouri, Kansas and Arkansas fighters will open the Kansas City Star's annual Golden Gloves Tournament of Champions here tonight.

Bouts are scheduled tonight, Tuesday, Wednesday and Saturday.

Among the four champions from the 1948 team who will compete this year is Bob Miller, St. Joseph, Mo., heavyweight.

A Merry Show for Baseball Writers

By Joe Reichler

NEW YORK, Feb. 6—(P)—Baseball's problems were temporarily forgotten last night as the game's top figures nearly laughed themselves sick watching the New York baseball writers put on their 27th annual show.

The show was so funny in spots, the gathering even forgot about the \$20-a-plate bite.

In one of the few serious notes of the hilarious evening, the diamond historians presented plaques to Casey Stengel, who managed the New York Yankees to a world championship last year, and to Phil Rizzuto, who played a powerful lot of shortstop for the same organization.

Stengel received the William J. Slocum award for meritorious service to the game over a long period. Rizzuto was given the Sid Mercer memorial plaque as the outstanding player of the 1949 season.

Both awards were named for well-known baseball writers, no longer living.

After these ceremonies and a round of speeches including two by Senator John W. Bricker of Ohio and W. Stuart Symington secretary of the air forces, the scribblers proceeded to lampoon prominent figures in the sport with theatrical skits patterned from Broadway hits.

Chicago Cubs' Minor System Will Train at Moultrie, Ga.

CHICAGO, Feb. 6—(P)—Three clubs in the Chicago Cubs' minor league system will pitch spring training camps at Moultrie, Ga., the Cubs said today.

The Moultrie club of the Georgia-Florida Class D league has become a Cub affiliate through a working agreement with the Cubs' Springfield, Mo., club of the Western Association. It also will be in training.

The other three are Des Moines of the Western league and Grand Rapids of the Central league, both Class A, and Decatur, Ill., of the Three I league, Class B.

"Freed from NERVOUS WORRY"

"My nervous state was due to drinking coffee. Switching to Postum calmed me—I stopped worrying and began to really enjoy life!"

SCIENTIFIC FACTS: Both coffee and tea contain caffeine—a drug—a nerve stimulant. So, while many people can drink coffee or tea without ill-effect—others suffer nervousness, indigestion, sleepless nights... POSTUM contains no caffeine or other drug—nothing that can possibly cause nervousness, indigestion, or sleeplessness.

MAKE THIS TEST: Drink POSTUM exclusively for 30 days—judge by results!... INSTANT POSTUM—A Vigorous Drink made from Healthful Wheat and Bran.

Bock Again

...in bottles!

Stag BEER

It's here! That famous Stag bock beer — so smooth and tangy, so rich and creamy. And it's available now in bottles to take home and enjoy. Ask for Stag bock beer, the long-time favorite, at your nearby store or tavern. But don't delay — the supply is limited.

Carl W. Frank, Gov. W. J. Ramsey, Sec'y.
Cold Shoulder To The Small Business Man
Go Government Agencies so House Group Says
WASHINGTON, Feb. 6—(P)—A House committee said small business today is being cold-shouldered by government purchasing agencies and imperilled by failure to enforce the federal anti-trust laws.
In a sharply worded report, the House Small Business committee: 1. Suggested that a "top to bottom" reorganization of the Federal Trade Commission is worth considering. 2. Declared that small firms are plagued by delays, red tape, "tailored" specifications, and a "lackadaisical" attitude when they try to do business with the government.
"Despite the declared policy of the Congress and the directives of the President, there is no forthright or substantive evidence that small business is receiving any calculated or substantial portion of government procurement orders," it said, adding: "Although it is generally denied, it is believed by the committee that many government specifications on common-use and standard items are, in fact, drawn from an item, a product, or a machine produced by some particular manufacturer."
One Can Bid
On such "tailored" items, the report said, usually only one manufacturer can bid—the one who made the item in the first place.
"Small business will never be able to secure government contracts in normal times unless constructive steps are taken by all agencies to cure the specification disease," it concluded.
The committee was especially critical of the armed services: "It accused them of apparently 'padding' procurement reports, which 'strangely enough' list 'many giants on the small-business side of the ledger.'"
"The committee staff has not found an instance of a small business institution being included in the large-business category," the report said.
The committee said the armed services "are apparently not concerned with the consideration that, if small business is eliminated from the American picture, we have lost the over-all fight for the American system even without a battle, much less a war."
Fire for FTC
The House group, which is headed by Rep. Patman (D-Tex.) saved some of its heaviest fire for the FTC.
It said the agency was established to curb monopoly, but added that "it has not accomplished its full objectives, and small business finds itself today, after 35 years of FTC operation, in greater peril than ever before."
The report said the FTC is subject to "Rip Van Winkle somnolence" in investigating complaints.
He placed the site of the blasts as "latitude 40 degrees 20-30 minutes north, longitude 20-degrees 10-20 minutes east." This would be approximately at the border of the Soviet Asiatic republic of Kazakh and the Chinese province of Sinkiang.

U.S. ATLANTIC OCEAN FLA. BAHAMA IS. PACIFIC OCEAN. GULF OF MEXICO. CARIBBEAN SEA. JAMAICA. GUATEMALA. HONDURAS. NICARAGUA. EL SALVADOR. COSTA RICA. PANAMA. PANAMA CANAL. Isthmia. "ISTHMANIA" NOW—After Feb. 1, Guatemala will be known as "Isthmia" according to a government decree. If you write to friends in the Central American republic, be sure to use the new name. After the Feb. 1 deadline, mail from abroad incorrectly addressed to "Guatemala" will be returned.

OF CONSULS AND CATS—En route to the United States, U. S. Consul-General Angus Ward and members of his party, recently freed by Chinese Reds, pause in Yokohama, Japan. With the party are some of the world's most well-traveled cats. Left to right, Mrs. Ward holds "Jeep," a cat born in Vladivostok, Russia; Consul Ward holds "Saikhan," born in China; Vice Consul William N. Stokes holds "Saki," born in Mukden, and Janina Nowicka, the Wards' maid, holds "Ranger," born in Vladivostok.

Looking Backward
Forty Years Ago
W. M. Johns left last night for a business visit at Seattle, Wash., making the trip through St. Louis and Minneapolis, Minn.
Nine crated Elk from a point in Michigan consigned to Warsaw, Mo., passed through the city this morning.
W. M. Harbaugh, formerly in the elevator business here, is now living in Colorado Springs, and is engaged in traveling out of that city.
John McCloskey, who has been in charge of the M. K. & T. Telegraph office at Denison, Texas, has returned to Sedalia to be chief operator at the Western Union Telegraph company's offices.

Electric Belt to Quit
BALTIMORE—(P)—One of the nation's oldest electric railways is gently giving up the ghost. For 69 years, the Baltimore and Annapolis railroad has shuttled between the two cities, about 25 miles apart.
But the roadbed deteriorated, the rolling stock gradually became a laughing stock, with the newest passenger car a trilling 36 years old. Finally the Maryland Public Service Commission, which has wrestled long and anxiously with B. and A. problems (mostly financial) authorized it to abandon rail passenger service and switch to busses come New Year.
The demand for beaver pelts is said to have been the principal reason for the exploration and development of Canada.

S s s h!
Keep It Under Your Hood.
That motor of yours should run so smoothly—so quietly, that you would hardly know it's there.
If that isn't the case with your car, bring it in and let us tune it back to a whisper. Winter motoring can be safe and happy motoring... drive in today.
BROWN'S AUTOMOTIVE CLINIC
